The screenshot shows the Cisco AnyConnect configuration interface. The left sidebar contains a tree view of configuration options. The main panel displays the 'AnyConnect Client Profile' configuration page. Red arrows and numbers 1 through 5 highlight specific elements:

- 1**: Points to the 'Configuration' tab in the top navigation bar.
- 2**: Points to the 'Remote Access VPN' option in the left sidebar.
- 3**: Points to the 'Network (Client) Access' folder in the left sidebar.
- 4**: Points to the 'AnyConnect Client Profile' folder in the left sidebar.
- 5**: Points to the 'Add' button in the top toolbar of the configuration panel.

The main panel contains the following text and controls:

This panel is used to manage AnyConnect Client Profiles and perform group assignment for AnyConnect version 2.5 or later. You can select a profile to edit, change group or to delete. You can select the 'Add' button to add a new profile. Pressing the Import or Export button is for upload and download of client profiles between local machine and device.

The profile Usage field is introduced with the Secure Mobility Solution. This field contains different profile usage in AnyConnect version 3.0 and later.

Buttons: Add, Change Group Policy, Delete, Import, Export, Validate

Profile Name	Profile Usage	Group Policy	Profile Location
--------------	---------------	--------------	------------------

Buttons: Reset, Apply
